

Steering innovation...

ABOUT US

Eon Automation & Engineering (Pvt.) Ltd

Eon automation provides complete industrial automation solutions which meets your industrial innovation requirements and provides you with the flexibility to harvest your investment in growing your organization.

We are leading professionally managed company, which is engaged in distribution of Industrial maintenance products & automation services. Eon Automation experts in building reliable, cost-effective, high-efficiency solutions that can take your industrial or manufacturing operation to a whole new level of productivity.

We are focused on providing our Customers with world class products from leading suppliers and dedicated to help our customers getting familiar with latest technology, and to enhance the operational performance for the growth of industry.

Mission:

To listen to our customers and continually strive to provide perfect service, distribute quality products and offer technologically advanced solutions. To treat our employees with dignity and respect and to provide a safe and pleasant work environment. To act in partnership with our suppliers as we promote their lines in our marketplace and educate our employees on the application of their products. To make a fair profit to assure the company's continued growth and financial stability.

Vision:

Our vision is to be the market leader in the design, distribution and implementation of industrial automation systems. We will confront this challenge by developing innovative marketing, engineering and customer service strategies to meet our individual customer's changing needs. We will accomplish this goal with a well-educated and highly motivated staff that thrives on personal growth and satisfaction through teamwork & creativity. EON Automation & engineering will represent the most prestigious and technologically superior manufacturers. We will assure our longevity through well defined and financially prudent customer driven planning.

INDUSTRIES WE SERVE:

Food and Beverages

Cement

Textile

Pharmaceuticals

Oil and Gas

Fertilizer

Tobacco

Automotive

BRANDS WE DEAL IN:

Leuze electronic

The Leuze product range includes switching and measuring sensors, identification systems, data transmission and image processing solutions, and machine safety components and systems. The focus of their work is in the areas of intralogistics, packaging, machine tools, automotive, and laboratory automation.

SIEMENS

Eon automation provides complete range of Siemens products for every industrial requirement like PLCs, I/O Cards, VFDs, Power components & Motors. As we increase our offerings, we remain focused to enhance our unique technology differentiation and to deliver integrated, value-added solutions.

Allen-Bradley

AB Rockwell Automation is built on a strong foundation of integrity. Our reputation for quality, reliability, and innovation is represented by the brands our products, software, and services carry. As we increase our offerings, we remain focused to enhance our unique technology differentiation and to deliver integrated, value-added solutions.

As a leading supplier of sensors, measuring systems, laser markers, microscopes, and machine vision systems worldwide, KEYENCE is at the forefront of factory automation. We strive to develop innovative and reliable products to meet the needs of our customers in every manufacturing industry.

SICK

Sensor Intelligence.

From factory automation to logistics automation and process automation, SICK's sensor solutions are keeping industry moving. As a technology and market leader, SICK provides sensor intelligence and application solutions that create the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents, and preventing damage to the environment.

Today, the world runs on critical infrastructure and technology. Planes. Hospitals. Factories. Data centers. Vehicles. The electrical grid. These are things people depend on every day. And the companies behind them depend on us to help solve some of the toughest power management challenges on the planet. At Eaton, we're dedicated to improving people's lives and the environment with power management technologies that are more reliable, efficient, safe and sustainable.

FESTO

Festo is both a global player and an independent family-owned company with companies in 61 countries. We supply automation technology and technical educational solutions to more than 35 industries. These include pneumatic and electric drives, valves, servo controllers, motion control, installation-saving connection technology, handling and assembly technology, air preparation equipment, fittings, vacuum technology, position and quality inspection, sensors and control technology.

Camozzi Automation is a global leader in the design and production of motion and fluid control components, systems and technologies for Industrial automation, Transportation and Life science industries.

Lenze develops with and for its customers high-quality mechatronic products, powerful systems consisting of hardware and software for successful automation and digitalisation services in areas such as big data management, cloud and mobile solutions, as well as software to shape the Internet of Things (IoT).

Finder is a specialist manufacturer of over 14,500 different products for residential installations, building automation as well as energy management, industrial applications and automation, suitable for just about every requirement.

PILZ

THE SPIRIT OF SAFETY

Pilz is a leading, innovative automation technology company. As experts in the safety of man, machine and the environment, we offer worldwide customer-oriented solutions for all industries. Our business activities include innovative products and comprehensive services from the fields of sensor technology, control technology and drive technology.

Bürkert is one of the world's leading manufacturers of measurement and control systems for liquids and gases.
